THE ROLE OF THE CHAMBER BOARD

The Board is the legal authority for the organisation and Board Members are entrusted with ensuring the organisation is soundly governed for the benefit of all Chamber members.

As the governing body, the Board’s focus is on the wider issues of organisational purpose, direction and ends. It works in close partnership with the CEO who is responsible for the management of the organisation and its staff.

Board members are expected to become familiar with the Chamber’s policies, plans and functions and to participate actively in the work of the Board for the greater good of the Chamber, and in particular to be willing to:

- Serve on Board committees.
- Undertake additional responsibilities from time to time.
- Attend Chamber events as a member of the Board.
- Represent the Board at external events and committees, contributing to the wider business environment.
- Generally devote sufficient time to Board affairs to be a full team player.

The Board meets monthly, currently at 4.30 pm on the third Monday of each month. A subset of the Board forms the Board of Management which also meets monthly.
